

Installing and Setting Up Windows Live Mail Step by Step

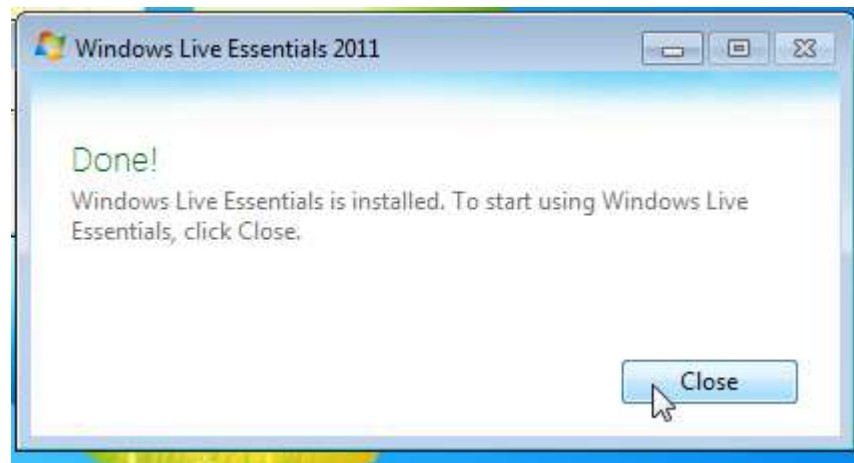

1. If not already installed on your PC download and save the installer from <http://explore.live.com/windows-live-mail> to your desktop
2. Once downloaded successfully right-click on the icon and select “Run as Administrator

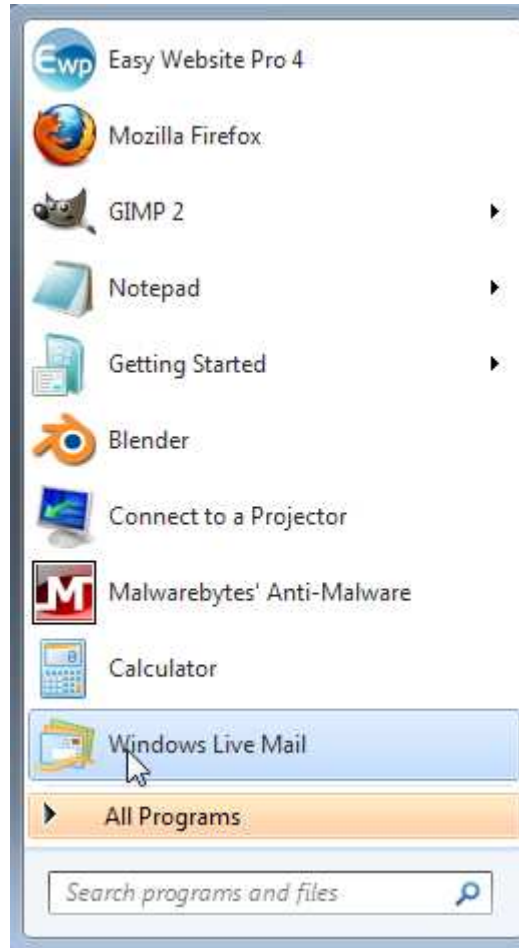

3. Select “Choose the Programs you want to install” to eliminate any unwanted programs from being installed on your PC

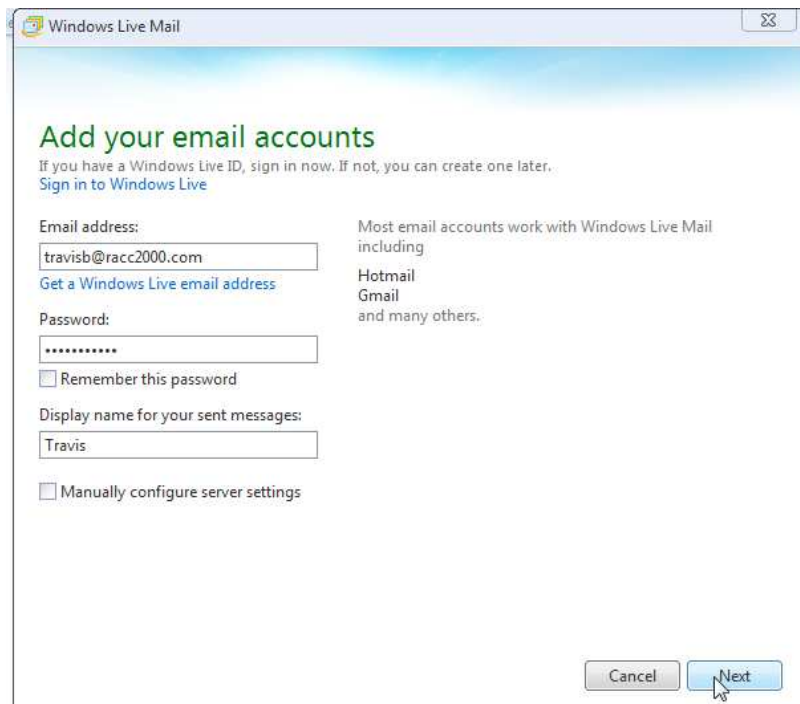

4. Wait for the installer to install the Mail software to your PC then close the installer

5. Click Start then click on Windows Live Mail to start the application.

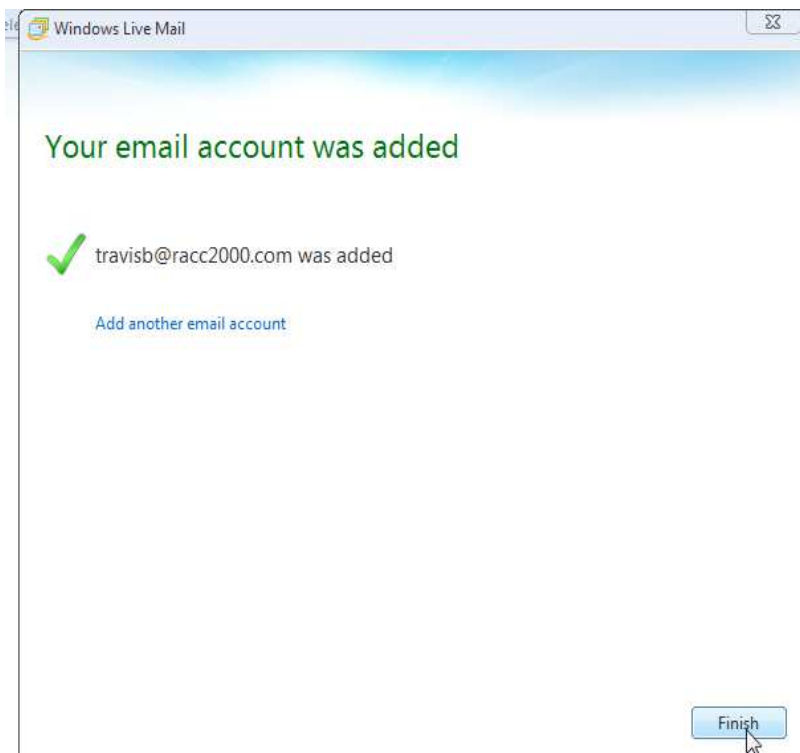

6. Add your email accounts with the information provided by your email provider

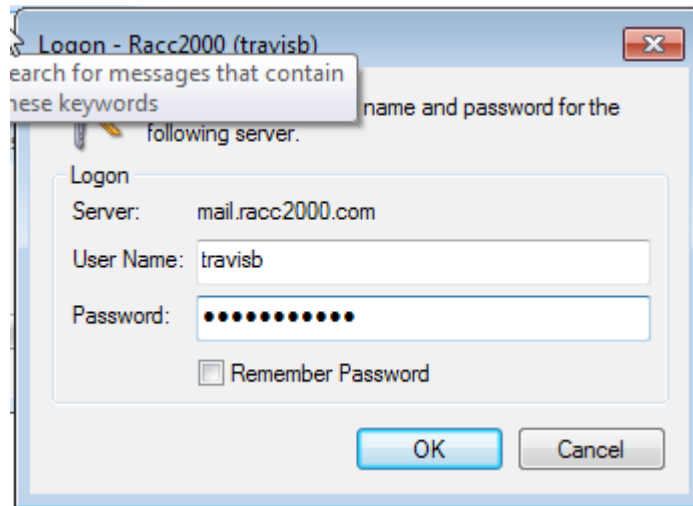

The screenshot shows the 'Add your email accounts' dialog box in Windows Live Mail. The title bar reads 'Windows Live Mail'. The main heading is 'Add your email accounts' in green. Below it, there is a sub-heading: 'If you have a Windows Live ID, sign in now. If not, you can create one later. Sign in to Windows Live'. The form contains several fields: 'Email address:' with the value 'travisb@racc2000.com' and a link 'Get a Windows Live email address'; 'Password:' with a masked field '.....' and a checkbox 'Remember this password'; 'Display name for your sent messages:' with the value 'Travis' and a checkbox 'Manually configure server settings'. To the right, there is text: 'Most email accounts work with Windows Live Mail including Hotmail Gmail and many others.' At the bottom right, there are 'Cancel' and 'Next' buttons. A mouse cursor is pointing at the 'Next' button.

7. Click finish

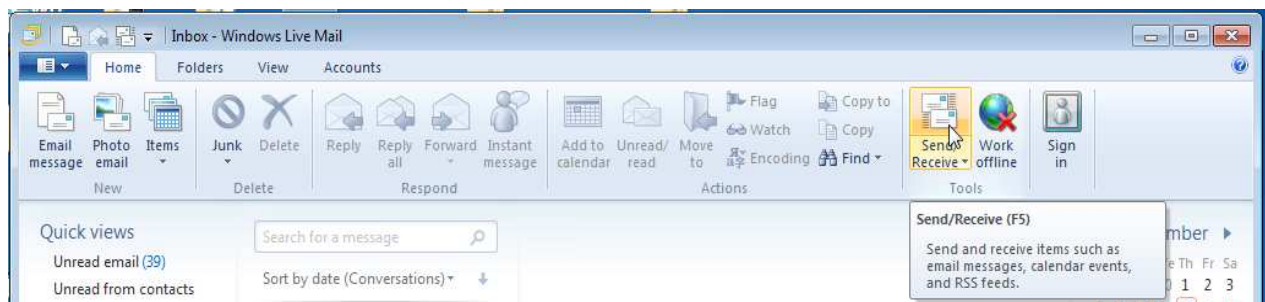

The screenshot shows the 'Your email account was added' dialog box in Windows Live Mail. The title bar reads 'Windows Live Mail'. The main heading is 'Your email account was added' in green. Below it, there is a green checkmark icon followed by the text 'travisb@racc2000.com was added'. There is a link 'Add another email account'. At the bottom right, there is a 'Finish' button. A mouse cursor is pointing at the 'Finish' button.

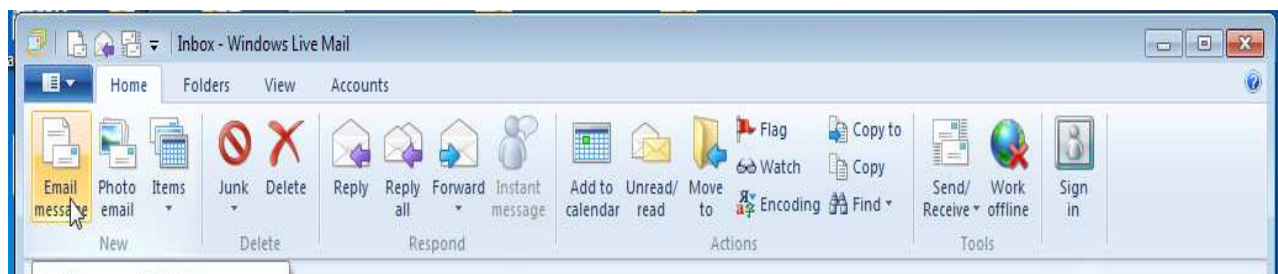

8. Log into your Email account, if this is a private PC you can chose for the software to remember your password

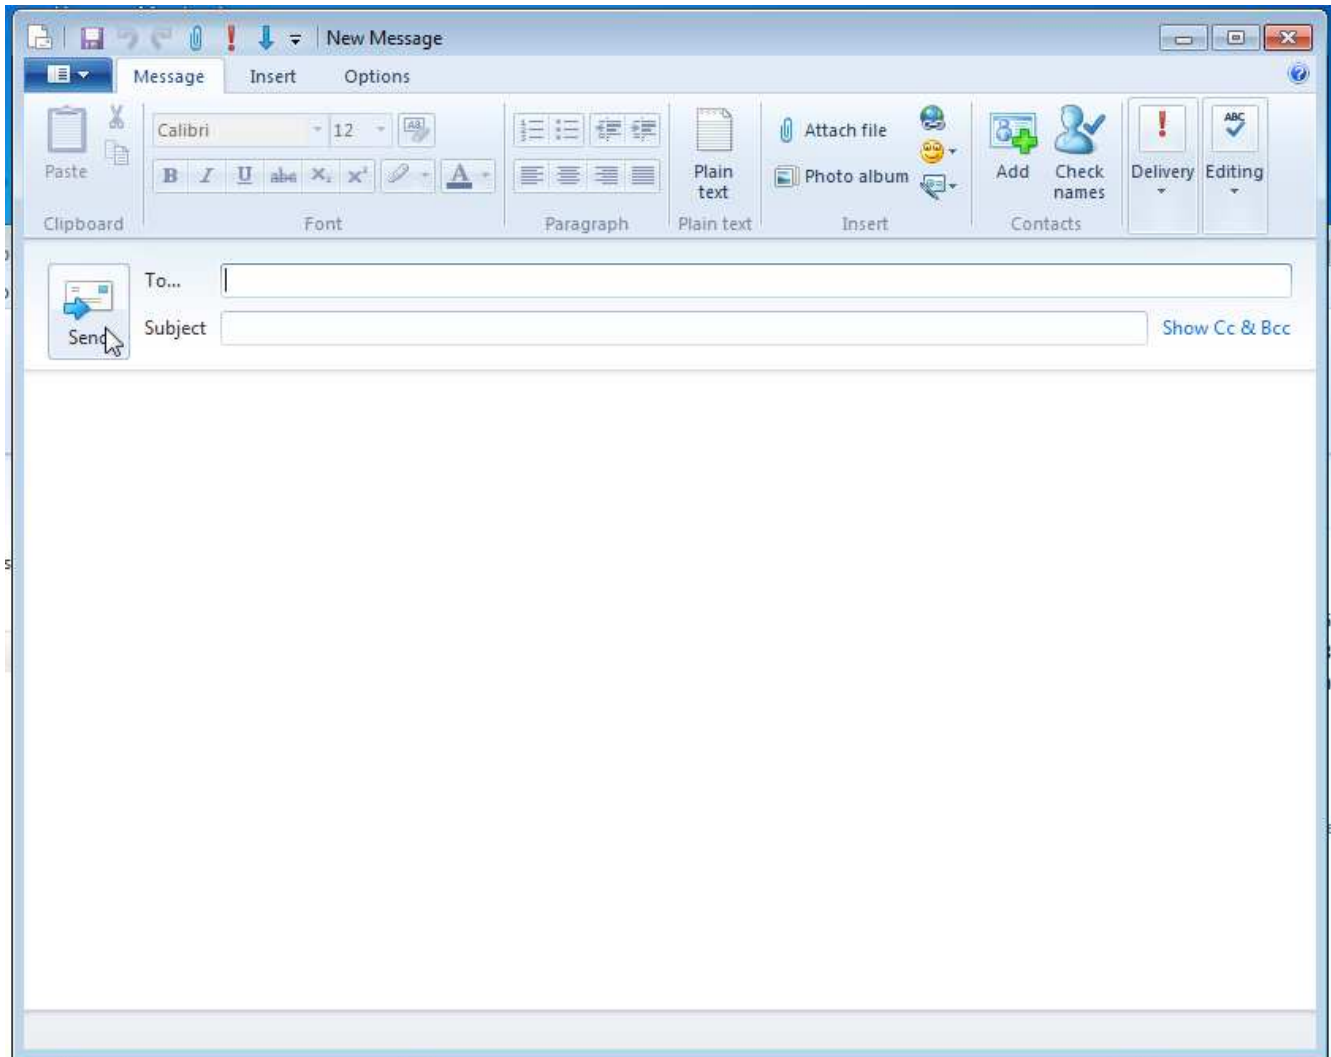

9. If your e-mail doesn't automatically load following logging in, click "Send and Receive" to load your e-mails from your account

10. To create a new mail message click on "E-Mail Message"

11. Now you are ready to create a E-mail, use this screen as you would any other e-mail application, upon completion simply click “Send”
